TCS-359-56
Copy 5 of 6

7 November 1956

MEMORANDUM FOR: Director of Operations

SUBJECT: Current Information on Operations to
Assist PARAMOUNT

REFERENCES: A. TCS-325-56 (ARC-M-23), 30 October 1956
B. TCS-329-56, 31 October 1956
C. TCS-232-56, 1 November 1956

1. At the Ad Hoc Requirements Committee meeting on 30 October 1956 (Reference A), I undertook to make arrangements which would provide the PARAMOUNT Committee and the European Photo Interpretation Center (URPIC) with information regarding materials in the pipe line so that they would be in a better position to manage their current intelligence task.

2. Subsequently, I submitted a memorandum to Chief, HTAUTOMAT (Reference B), indicating the information which would be provided and the method of dissemination, to which both the TALENT Security Officer and the Project Security Officer took exception. In order to meet their proper criticism, may I now request Operations to provide to HTAUTOMAT for dissemination to the PARAMOUNT Committee the following information:

a. Mission number to be run

b. Configuration to be used

c. Targets to be covered

d. The day and approximate hour at which the film will be available to the processing center at the field installation.

3. This same information should be made available to URPIC and, at the time that it is established, HTAUTOMAT Number 2.
